THURSDAY, JUNE 17, 1897.

Durrant has been reprieved until July 9, which only prolongs his agony a few weeks.

The suspense over the suspension of McCord's nomination is getting awful—so Attorney-General Wilson probably thinks.

It is a source of gratification to law-abiding citizens to note the fact that the grand jury of Gila county remonstrated against the immoderate exercise of the pardoning power by Governor Franklin and some of his predecessors in office. It is a strong protest and a timely one. The report will be found in this issue of the SILVER BELT.

The report published elsewhere in this issue to the effect that the Peralta land grant claim has been revived and that the alleged heirs, living in Mexico, are about to bring suit for recovery in the land court at Santa Fe, will not occasion alarm amongst the residents upon the alleged grant in Arizona. The Peralta grant was shown to be spurious by Surveyor General of Arizona Royal A. Johnson, in a very full and able report, after an exhaustive search had been made, at the instance of the United States government, both in Mexico and the archives at Madrid, Spain. The trial of Reavis claim furnished additional proof that the Peralta claim is fraudulent, and there is no likelihood that it will ever be reopened in the land court.

The production of copper for 1896, according to the Mineral Industry, supplement to the Engineering and Mining Journal, reached the largest total ever reported, 467,822,923 pounds, equal to 208,850 long tons, or 212,240 metric tons. Over half of the production was sent abroad, the shipments to foreign countries amounting to no less than 125,605 long tons, or 59.2 per cent of the output. Had it not been for an extraordinary foreign demand the production of copper must have been very much curtailed, instead of showing, as it did, an increase of 81,369,423 pounds, or 21.1 per cent. The foreign demand also kept up the average price, which was 10.88 cents per pound for Lake copper in New York, against 10.66 cents in 1895. This price is probably about half a cent above the general average for the metal, when the large sales of electrolytic and casting copper are considered.

AN EXCELLENT APPOINTMENT.

William M. Griffith was nominated on June 10, to be United States marshal for the district of Arizona, vice W. K. Meade who was removed, it is alleged, for interfering to prevent the confirmation of M. H. McCord as governor.

The appointment of Wm. M. Griffith meets with approval throughout the territory and nowhere does it give greater satisfaction than in Gila county, where he has resided for many years and has won the confidence and respect of everyone acquainted with him. The editors of the SILVER BELT are especially pleased by his appointment and tender congratulations.

The Star says: "Mr. Griffith, the newly appointed marshal, is a native of Chester, Chester county, Pennsylvania. He has been in Arizona more than twenty-five years. He was for a long time connected with the overland stage and mail lines, and later was of the firm of Kearns & Griffith, mail contractors, and in later years he has been in the stock business at Dripping Springs, Gila county. He has always been a strong Republican, a McKinley man, and is now the national committeeman for the territory. No man stands better in the territory than Mr. Griffith, or who is better qualified for the office of marshal than he; a man of courage, integrity, honesty and every inch a man."

HAVE YOUR CLAIM PATENTED.

If the owners of mining claims would, whenever they have complied with the requirements and are able to do so, obtain patents for them, they would remove a very fruitful source of litigation, says the Mining and Scientific Press. There are very few mines located correctly. Proper surveying and accurate measurements are seldom made when mines are located. It has been proposed that the state legislature enact that where a locator has the boundaries and corners of his claim established by a United States deputy mineral surveyor and his claim connected with a corner of the public survey, and incorporated in the record of

the claim the field notes of such survey, that this will be sufficient to identify the claim. But even were such a provision made very few would take advantage of it.

Considering the value of the property involved, less care has been taken in perfecting titles to mining claims than in anything else. Of course the laws have been faulty and left much to the individual locator, and his carelessness has been the cause of an immense amount of litigation and confusion. Until a patent is obtained the owner of the claim can never be certain of his title.

That old veteran newspaper man, Judge Hackney, of the Globe Silver Belt, puts a quietus on Attorney General Wilson's learned (?) dissertation on the Harrison act. Judge Hackney claims that as the counties have overreached the limit of 4 per cent no levy can properly be made for other than the actual necessary expenses of the counties and territory. The normal and reform schools, jail buildings, courthouses, etc., cannot become beneficiaries where the limit has run. The judge is undoubtedly correct and J. Furioso Wilson is wrong.—Mohave County Miner.

The supreme lodge of the Ancient Order of United Workmen is in session at Milwaukee. This fraternal organization will have passed its first quarter of a century of existence during this present year. It now numbers over 370,000 members and is paying out more insurance benefits annually than any other insurance fraternity in the United States.—Star.

FINAL REPORT OF GRAND JURY.

We, the grand jury for the spring term of 1897, met in session pursuant to instructions from the Hon. Owen T. Rouse, judge of the Second judicial district, territory of Arizona, county of Gila, on the 9th day of June, 1897, to make this our final report. We have diligently inquired into and disposed of ten (10) cases, to-wit:

Murder, three (3) cases; assault with intent to commit murder, one (1) case; assault with a deadly weapon, three (3) cases; aggravated assault, one (1) case; grand larceny, two (2) cases.

We have found true bills in the following cases, to-wit:

Murder, three (3) cases; assault to commit murder, one (1) case; assault with a deadly weapon, one (1) case; aggravated assault, one (1) case; grand larceny, one (1) case.

We have ignored the following cases to-wit: Assault with a deadly weapon, two (2) cases; grand larceny, one (1) case.

Also in our capacity as grand jurors we desire to enter a protest against the abuse of the pardoning power, as exercised by the present governor of the territory and some of his predecessors in office. We find by reference to Governor Franklin's report of pardons granted by him from April 18, 1895, (when he assumed the discharge of his official duties) up to the close of the year 1896, he caused to be issued thirty pardons and commutations of sentences to convicts incarcerated in the territorial prison. After considering the reasons stated by the governor for such executive clemency we are firmly of the opinion that a majority of the pardons granted were ill-advised and unwarranted. In many cases men convicted of heinous crimes were pardoned when their terms of imprisonment were about to expire for the purpose, as stated, to restore citizenship. This pernicious practice, we hold, cannot be too severely condemned—for what reason is there to expect that perpetrators of infamous crimes can be cleansed of their moral depravity through human forgiveness and made good citizens? We cannot hope to maintain law and order in our communities if criminals are to be turned loose upon us and restored to all the immunities and privileges of the upright citizen. Furthermore, it should be borne in mind that laws are enacted, courts conducted and jails and penitentiaries are maintained at enormous expense in order that crime may be put down and the law-abiding citizen protected in his property and person. A proper regard for the welfare and good name of Arizona should deter the governor from the exercise of the pardoning power save in extreme cases where proof is furnished that the prisoner is innocent of the crime of which he was convicted.

Petitions of citizens and court officials are generally relied upon to secure pardons, and often cited by the governor as a sufficient reason or excuse for granting clemency. We would suggest that a far more reliable index of the prisoner's guilt or innocence is the stenographer's report giving verbatim the evidence adduced in the trial, and which should be mainly relied upon by the governor in passing upon applications for pardon.

Having transacted all business brought before us we respectfully request our discharge.

GARRETT S. VAN WAGENEN,
Foreman.

THERE WILL BE NO HANGING.

Augusta Chacon, who was to have been hanged June 18 for the murder of Pablo Salcido at Morenci in 1895, and whose sentence the governor re-

fused to commute, made his escape from the Solomonville jail on the night of June 9.

From the Bulletin's account of the air it seems there must have been gross carelessness on the part of the jailors, Joe Reaves and George Burkner, charged with Chacon's safe-keeping. Both officers were asleep in the jail at the time and it is singular that neither of them were disturbed by the noise which Chacon must have made in sawing and digging his way out through the wall. After sawing through the double layer of two-inch pine boards which lined the adobe wall and which were spiked together with five-inch spikes, Chacon prized the boards off with an iron bar, pulling the long spikes with it, and which operation must have made considerable noise, yet his escape was not discovered until the next morning.

Sheriff Birchfield and Undersheriff Olney were both out of town. The Bulletin says: "It has been known ever since Chacon was convicted that he had friends who would render him any assistance in their power. Last fall it was rumored that his friends would make an attempt to rescue him from jail, and Chacon was removed to the Tucson jail for safety, where he remained until last month. This should have caused extra precautions to have been taken in guarding him."

Sheriff Birchfield has offered a reward of \$700 for the arrest of Chacon, but there appears to be little hope of capturing him and he is probably now safe in Mexico. Chacon is known to some of our Mexican population, having lived in Globe and on Tonto creek for a short time. He has always borne an unsavory reputation.

THE PERALTA GRANT.

It is to Be Litigated Again in the United States Land Court.

The Peralta grant of 50,000,000 acres in Arizona, in which Phoenix, the capital of that territory, is situated, and also a great portion of the Gila river valley, in which a large number of valuable farms and towns exist and have their being, is about to come up in the courts again to be litigated, and this time, it is thought, successfully.

The heirs of said grant live at San Luis Potosi, Mexico, and the eminent Mexican attorney, E. D. Garza, who does business in San Antonio, Texas, and Monterey, Mexico, is in El Paso on his way to New Mexico to file the claim before the land court now sitting at Santa Fe, for the heirs of said grant. He says that the grant was originally given to Marquez Falces de Peralta, Baron de Arizona, by the Spanish government for services rendered the queen in 1774, and that the title is as clear as the noonday sun.

Attorney Garza is very enthusiastic over the matter, and having as he has a clear chain of title signed by the queen herself, properly authenticated and designated on old maps of the grant, Mr. Garza thinks that he will be able to establish the Peralta grant beyond the possibility of a doubt, as he has ample authorities at his command to convince any court in this country of the genuineness of the grant and of the legitimacy of the heirs of the same.—Albuquerque Citizen.

Nervousness

Cannot be permanently cured by the use of opiates and sedative compounds. It is too deeply seated. It is caused by an impoverished condition of the blood, upon which the nerves depend for sustenance. This is the true and only natural explanation for nervousness. Purify, enrich and vitalize the blood with

Hood's Sarsaparilla

and nervousness will disappear. Hood's Sarsaparilla will give vitality to the blood and will send it coursing through the veins and arteries charged with the life-giving, strength building qualities which make strong nerves. If you are nervous, try Hood's Sarsaparilla and find the same relief of which hundreds of people are telling in their published testimonials. Get it and only

Hood's Pills
Because Hood's Sarsaparilla is the only True Blood Purifier prominently in the public eye today. Sold by all druggists.

Hood's Pills
cure habitual constipation. Price 25c. per box.

MRS. A. J. SMITH,
MEDIUM

Magnetic Healer

Diagnoses diseases and treats successfully. Consultation free. The best of references. Rooms in residence of Mr. Conahan, below brewery, Globe, Arizona.

Hucklen's Arnica Salve.
The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price, 25 cents per box. For sale by H. C. Hitchcock, Globe, Arizona.
